About Beamtree

Beamtree provides cutting edge automation technology and data analytics that support health care providers improving safety, effectiveness and reduce the administrative burden on clinical staff.

- **Diagnostic technology:** our flagship RippleDown® products automate expert decision making in clinical and administrative processes in pathology.
- **Automation of clinical record coding and data integrity:** our RippleDown® and PICQ coding technologies improve data quality in health services, and are now using AI to develop new approaches to the automation of clinical record coding;
- **Clinical decision support in acute and community care:** our suite of Ainsoff applications leverage RippleDown® with machine learning to transform patient safety through automation of clinical and administrative process;
- **Analytics and knowledge networks:** we are field leaders in using data to benchmark quality and financial efficiency through national and global peer-to-peer alliances that accelerate innovation and knowledge management.
